

# CIRCULAR ECONOMY CHALLENGE BY SAINT-GOBAIN SEKURIT

Application  
deadline 14.05

Our ambition is that automotive glazing becomes a circular product. Join us in the transformation of our business!

Saint-Gobain Sekurit is already active in making automotive glazing more sustainable. But how to make our industry more circular?

You will compete with other students about the best idea to answer this question.

We are looking for students in business, engineering, sustainability, IT and related subjects and with a passion for sustainability. **No prior knowledge in automotive glazing or circular economy is needed!**
